STEP 1

Using soap and water thoroughly clean the tail lights. Ensure the tail lights are completely dry before continuing.

STEP 2

Apply the supplied tape to the inside edge of the tail light cover.

STEP 3

Test fit the covers prior to peeling off the tape backing. Match the small letters on the bottom of each cover to the light position above.

STEP 4

Remove the tape backing and install the light covers. Apply firm even pressure to taped areas to ensure proper adhesion.
