

LED TRUNK LIGHT

(2005-2014 MUSTANG)

INSTALLATION INSTRUCTIONS

CONTENTS

(1) LED Trunk Light

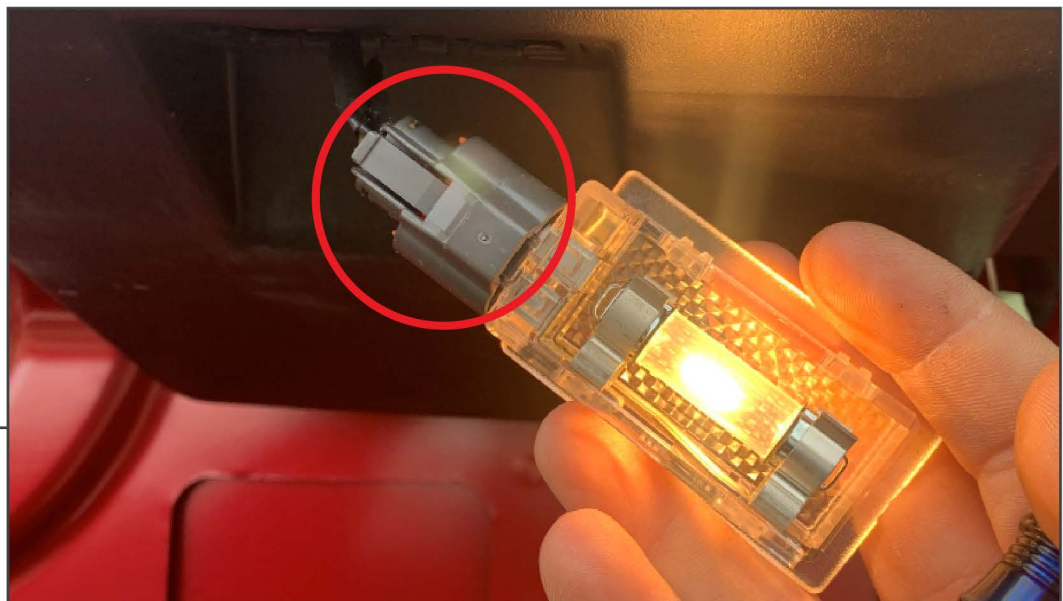

TOOLS REQUIRED

Flathead Screwdriver

STEP 1

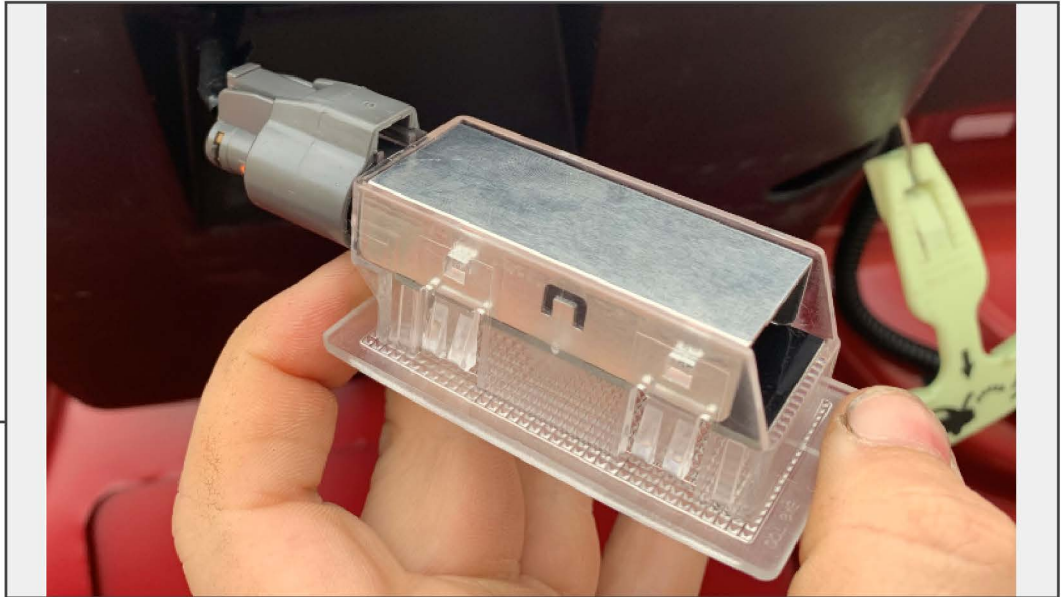

Open the trunk. Using a flathead screwdriver, lightly pry at the designated area to lift the light out from the trunk panel.

STEP 2

Press down the plastic tab on the connector while pulling the light out of the connector.

STEP 3

Plug the vehicle trunk light connector into the LED trunk light.

STEP 4

Install the LED trunk light following steps 1-2 in reverse order. Close, then reopen the trunk to ensure light is working properly.

Installation is now complete.
