

LED LICENSE PLATE LAMPS

(2010-2014 MUSTANG)

INSTALLATION INSTRUCTIONS

CONTENTS

(1) Pair of License Plate Lamps

TOOLS REQUIRED

Flathead Screwdriver
Phillips Screwdriver

STEP 1

Remove (2) Phillips screws in the license plate lamp housing. **Note: The hardware will be reused.

STEP 2

Using a flathead screwdriver, gently pry down inside the notch in the housing to lower the light housing down.

STEP 3

Install the new license plate lamp into the bumper reusing original hardware. Repeat steps 1-4 to the opposite side license plate lamp. **Note: Ensure the (2) electrical prongs to not become bent while installing the light to ensure proper electrical connection.

Installation is now complete.
