

LED LICENSE PLATE LAMPS

(1994-2004 MUSTANG)

INSTALLATION INSTRUCTIONS

CONTENTS

(2) License Plate Lamps

TOOLS REQUIRED

Phillips Screwdriver
Flathead Screwdriver

STEP 1

Remove the (2) plastic clips using a Phillips screwdriver.

Note: If the center portion will not unthread, wedge a small flathead screwdriver under the screw head and pry downwards to remove the clip.

STEP 2

Pull the license plate lamp housing downwards. Twist the light socket counter clockwise to release the socket from the housing. Remove the original license plate light bulb.

STEP 3

Plug the new LED license plate lamp into the vehicle license plate light socket. Tuck the new light assembly and harness into the vehicle.

STEP 4

Secure the new LED license plate lamp using the (2) original plastic push clips. Repeat steps 1-4 to the opposite side of the vehicle.

Installation is now complete.
