

GT500 STYLE SIDE SKIRT WINGLETS

(2024+ MUSTANG)

INSTALLATION INSTRUCTIONS

CONTENTS

- (1) LH Winglet
- (1) RH Winglet
- (20) Self Tapping Screws

TOOLS REQUIRED

- Phillips Screw Bit
- Drill
- Floor Jack
- Jack Stands
- Exterior Detailer
- Microfiber Cloth

STEP 1

Safely lift and support the front of the vehicle from the ground using a floor jack and jack stand.
Clean the bottom of the side skirt with exterior detailer and a microfiber cloth.

STEP 2

Identify the LH and RH winglets using the embossed label along the bottom of the winglet.
Once identified, test fit the winglet to the side skirt.

STEP 3

Once familiar with fitment, use (10) Phillips screws to secure the winglet to the vehicle chin spoiler. Ensure to space the screws evenly for the most secure fit.

STEP 4

Repeat steps 1-3 for the remaining winglet.

Installation is now complete.
