

NO-DRILL SPLASH GUARDS

(2015-2024+ MUSTANG)

INSTALLATION INSTRUCTIONS

CONTENTS

- (1) LH Front Splash Guard
- (1) RH Front Splash Guard
- (1) LH Rear Splash Guard
- (1) RH Rear Splash Guard

TOOLS REQUIRED

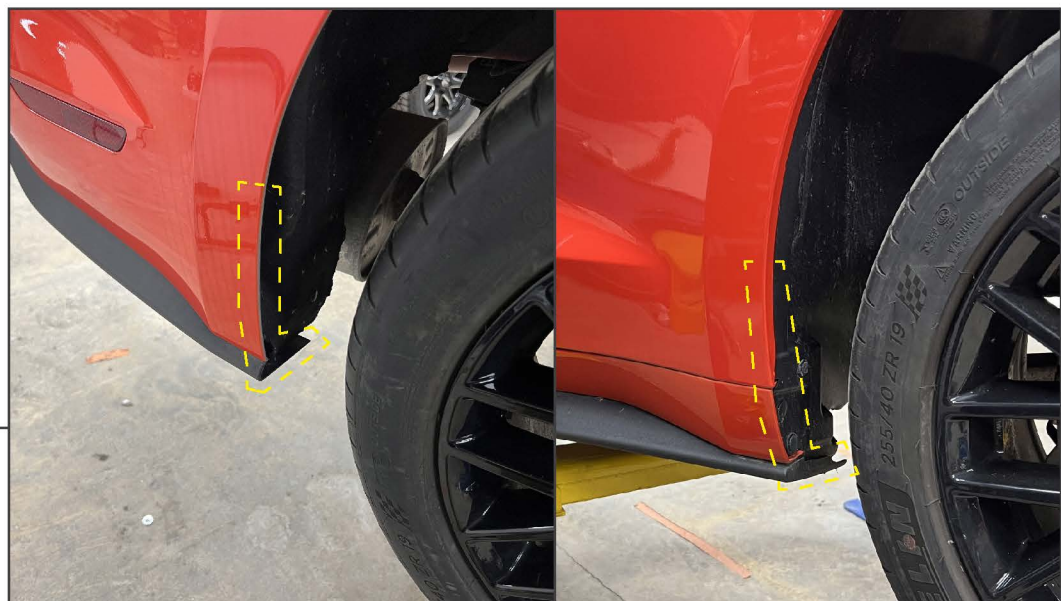

- Exterior Detailer
- Microfiber Cloth

STEP 1

Lay out and identify the splash guards.

STEP 2

Using a microfiber cloth and exterior detailer, clean the bottom of the vehicle fender/quarter panel, and allow to fully dry.

The splash guards will attach to the metal lip of the fender/quarter panel, and the lower plastic panel.

STEP 3

Once the vehicle panel is dry, fit the rubber clamps around the metal edge of the fender/rocker panel. Adjust as necessary, then press the splash guard into place to fully engage the rubber clamps.

STEP 4

Repeat steps 1-3 for all remaining splash guards.

Installation is now complete.
