**STEP 1**

Clean the vehicle reflector using isopropyl alcohol and a microfiber cloth. Allow the reflector to fully dry after cleaning.

Test fit the reflector cover to the vehicle to familiarize fitment. Once familiar with fitment, remove the red tape backing from the reflector cover tape.

**STEP 2**

Firmly press the reflector cover onto the vehicle reflector to engage the double sided tape.

Repeat steps 1-2 for the remaining reflector cover.

Installation is now complete.
