

# DASHBOARD TRIM PANELS

(2015-2023 MUSTANG - PERFORMANCE PACK ONLY)

---

## INSTALLATION INSTRUCTIONS

### CONTENTS

---

- (1) Center Dashboard Panel Trim
- (1) Headlight Switch Trim Panel
- (4) Alcohol Prep Pads
- (4) Adhesion Promoter Prep Pads

### TOOLS REQUIRED

---

- Interior Detailer
- Microfiber Cloth

SKU # 460943

## STEP 1

Using interior detailer and a microfiber cloth, clean the dashboard panel and headlight switch trim.

Clean the same area with the included alcohol prep pads, followed by the included adhesion promoter prep pads. Ensure each cleaning product is fully dry before applying the next prep product.

## STEP 2

Test fit the trim panel before removing the tape backing to familiarize fitment. Once familiar, peel the white tape backing from the double sided tape pre-installed to the trim panel. Once all the tape backing is removed, align and press the trim panel to the dashboard. Apply firm even pressure to the trim panel to encourage tape adhesion. \*It is recommended to adhere the top of the trim panel to the dashboard first, and then press the bottom of the trim panel into place.

Installation is now complete.
