STEP 1 [LH FRONT]

Remove any existing floor liner, if equipped. Then, use a vacuum cleaner to remove any loose dirt/debris.

STEP 2 [LH FRONT]

Fit the floor liner to the vehicle under the pedals. Then, press the (2) round snaps into the vehicle carpet anchor points.

STEP 3
[RH FRONT]

Remove any existing floor liner, if equipped. Then, use a vacuum cleaner to remove any loose dirt/debris.

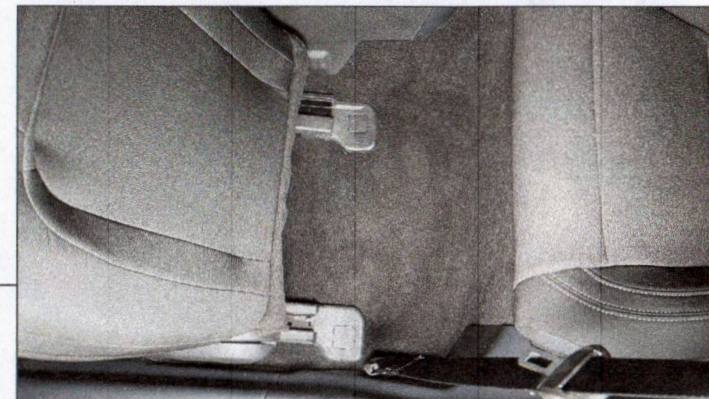

STEP 4
[RH FRONT]

Fit the floor liner to the vehicle, ensuring the liner is fitted properly to the contours of the interior.
Front floor liner installation is now complete.

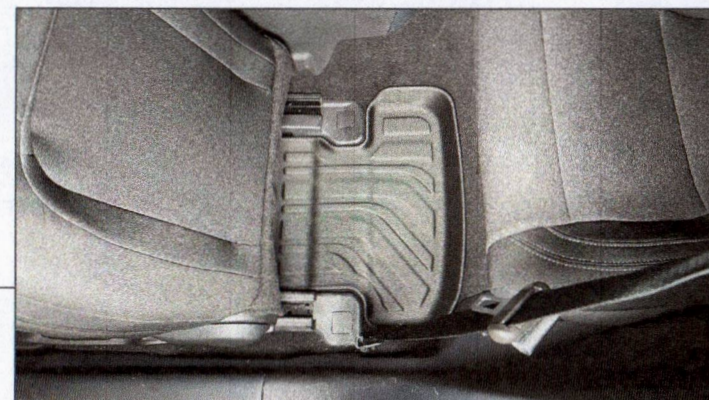

STEP 5
[REAR]

Move the front seats forward to reveal the rear seat floor. Remove any existing floor liner, if equipped. Then, use a vacuum cleaner to remove any loose dirt/debris.

STEP 6

Fit the floor liner to the vehicle, ensuring the liner is fitted properly to the contours of the interior.
Repeat Steps 5-6 for the remaining rear floor liner.
Rear floor liner installation is now complete.
