

TRUNK LINER

(2024-2025+ MUSTANG)

INSTALLATION INSTRUCTIONS

CONTENTS

(1) Trunk Liner

TOOLS REQUIRED

Vacuum Cleaner

SKU # 467032 / 467033

STEP 1

Open the trunk, and remove all items from the trunk area. Then, clean the trunk using a vacuum cleaner to remove any loose dirt/debris.

STEP 2

Fold the liner to fit into the trunk. Then, place the liner into the trunk and unfold to fit the cargo area. Press the liner until the liner is flat to the vehicle. If not perfectly flat, allow the liner to flatten out over time with heat exposure and cargo weight.

Installation is now complete.
