

# TERMINATOR<sup>TM</sup> X

## BLUETOOTH MODULE

### INSTALLATION INSTRUCTIONS

#### TERMINATOR X EFI BLUETOOTH MODULE (BLE MODULE) PN 558-483

#### OVERVIEW

The Terminator X EFI Bluetooth Module (BLE Module) connects a Terminator X or Terminator X max ECU to a Mobile Device wirelessly. The BLE Module allows for seamless live data viewing and live tuning from the Terminator X EFI mobile app, which is a free download from the App Store (iOS) or Google Play Store (Android). The BLE Module has an SD card slot for future expansion, a Pairing Button & a Status LED.

#### INSTALLATION

The BLE Module's Mizu M25 connector will plug directly into the Terminator X Main Engine harness CAN pigtail. Once connected to the Terminator X, turn on Ignition and pair with a Mobile device using the iOS or Android Terminator X EFI app.

#### MOUNTING

The BLE Module is not waterproof or weatherproof so should be mounted to the interior of the vehicle with zip ties or two-sided tape. The mounting location should be accessible to initially pair the module with a mobile device, however, once paired it can be hidden or tucked away.

**NOTE:** Terminator X EFI Bluetooth Module must be used with Terminator X V3 ECU Firmware or Later.

**NOTE:** Functions with Terminator X & Terminator X Max ECU's only, does not Support Sniper, Dominator & HP ECU's.

**NOTE:** PN 558-483 can be used in conjunction with 3.5" and 5" tuning interfaces, however it is recommended to only make tuning adjustments to an ECU from a single device.

#### LED DIAGNOSTIC

LED	COLOR	STATUS
	FLASHING GREEN	BLE MODULE IS POWERED AWAITING PAIRING
	SOLID GREEN	BLE MODULE IS READY TO CONNECT TO PAIRED DEVICE
	SOLID BLUE	BLE MODULE IS CONNECTED TO MOBILE APP

#### MOBILE APP

Download Holley "Terminator X EFI" from the App Store (iOS) or Google Play Store (Android). Scan the QR code for link to the App.

Scan with  
Smart Phone
