TOOLS REQUIRED

Soft Pry Tool

SKU: CH17670

**STEP 1
(FRONT)**

Using a soft pry tool, release the metal tab behind the side marker lamp. Once released, pull the lamp from the vehicle bumper.

STEP 2

Twist and remove the light socket from the side marker assembly. Remove the light bulb from the light socket.

STEP 3

Insert (1) Amber LED light bulb into the vehicle light socket. Install the light socket into the clear side marker lamp, and press the assembly into the vehicle bumper.

STEP 4 (REAR)

Using a soft pry tool, release the metal tab behind the side marker lamp. Once released, pull the lamp from the vehicle bumper.

STEP 5

Twist and remove the light socket from the side marker assembly. Remove the light bulb from the light socket.

STEP 6

Insert (1) Red LED light bulb into the vehicle light socket. Install the light socket into the clear side marker lamp, and press the assembly into the vehicle bumper.

Repeat steps 1-6 for the remaining side marker lamps. Installation is now complete.
