

FRONT LED SIDE MARKERS

(2015-2019 CHALLENGER)

INSTALLATION INSTRUCTIONS

CONTENTS

(1) RH Side Marker
(1) LH Side Marker

TOOLS REQUIRED

-Soft Pry Tool

SKU # CH3933

STEP 1

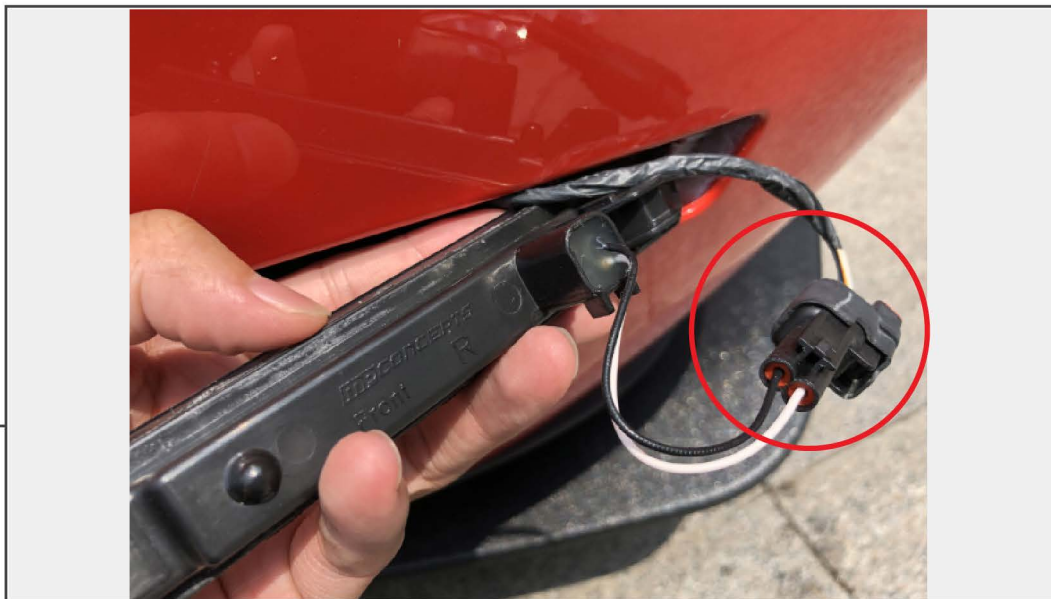

Using a thin non marring pry tool, depress the clip at the front of the marker light to remove it from the bumper. If you do not have non marring tools, you can reach behind the bumper to depress the clip.

STEP 2

Depress the clip on the wiring connection to remove it from the factory light.

STEP 3

Connect the LED marker light to the factory wiring harness.

STEP 4

Re-install the LED light into the bumper. Installation is now complete.
