

Installation Instructions for 2015-2018 Challenger Front LED Sidemarkers

Step 1:

Using a trim panel removal tool, carefully pry between the front sidemarker light and the bumper to release the clip. Slide the sidemarker light out to remove from the bumper.

Step 2:

Unlock the red retaining clip, press and release the factory wiring connector from the factory light.

Step 3:

Connect the factory sidemarker connector into the new light, and push in the red tab to secure.

Step 4:

Insert the locating tab into the bumper, and then carefully press the light until it clicks into place securing it to the bumper.

Installation Instructions for 2015-2018 Challenger Rear LED Sidemarkers

Step 1:

Using a trim panel removal tool, carefully pry between the rear sidemarkers light and the bumper to release the clip. Slide the sidemarkers light out to remove from the bumper.

Step 2:
