

LED REAR SIDE MARKER LIGHTS

(2011-2014 CHARGER)

(2008-2014 CHALLENGER)

INSTALLATION INSTRUCTIONS

CONTENTS

(1) Pair of LED Side Marker Lights

TOOLS REQUIRED

Flathead Screwdriver
Pliers

STEP 1

Using a flathead screwdriver, gently pry the side marker lens from the rear bumper.

STEP 2

Remove the side marker light from the bumper. Remove the light socket from the light housing by twisting the socket counter clockwise.

STEP 3

Remove the light bulb from the light socket.

STEP 4

Plug the LED side marker light into the vehicle light socket.

STEP 5

Install the light socket into the LED side marker housing by twisting the light socket clockwise.

Note: Pliers may be necessary to get better leverage on the light socket.

STEP 6

Install the LED side marker light into the bumper. Firmly press the light into the bumper to ensure the light is correctly seated.

Installation is now complete.
