

QUARTER WINDOW LOUVERS

(2011-2021 CHARGER)

INSTALLATION INSTRUCTIONS

CONTENTS

(1) LH Louver
(1) RH Louver
(1) Tape Roll

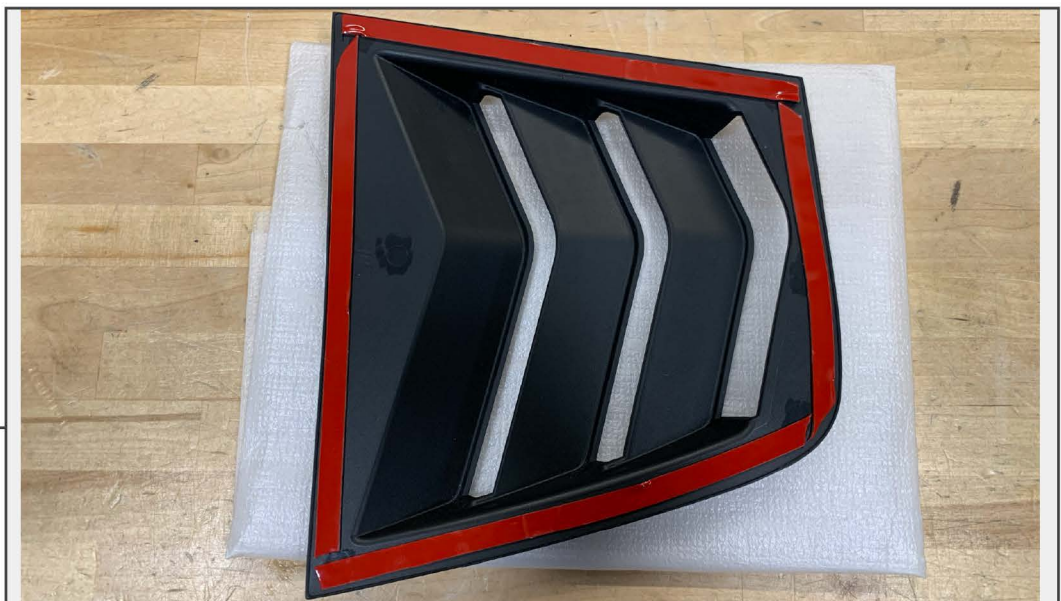

TOOLS REQUIRED

Window Cleaner
Microfiber Towel
Scissors

SKU # CR5859

STEP 1

Begin the installation process by thoroughly cleaning the rear quarter windows. Ensure the window and trim are completely dry prior to installation. Failure to do so can result in poor tape adhesion. It is highly recommended to install the parts when the ambient air temperature is above 60*.

STEP 2

Place the louvers face down on a soft surface and apply the provided double sided tape to the back side of the window louvers.

STEP 3

Test fit the louvers to the window prior to removing the tape backing. Once comfortable with how the louvers fit, remove the tape back.

STEP 4

Install the louver to the glass. Apply firm even pressure on the taped surfaces to ensure proper adhesion.
