# RETRACTABLE REAR CARGO COVER

(2021+ MUSTANG MACH-E)

---

## INSTALLATION INSTRUCTIONS

### CONTENTS

---

- (1) Retractable Cargo Cover
- (1) LH Locking Bracket
- (1) RH Locking Bracket
- (1) LH Hook Bracket
- (1) RH Hook Bracket

### TOOLS REQUIRED

---

- Isopropyl Alcohol
- Microfiber Cloth

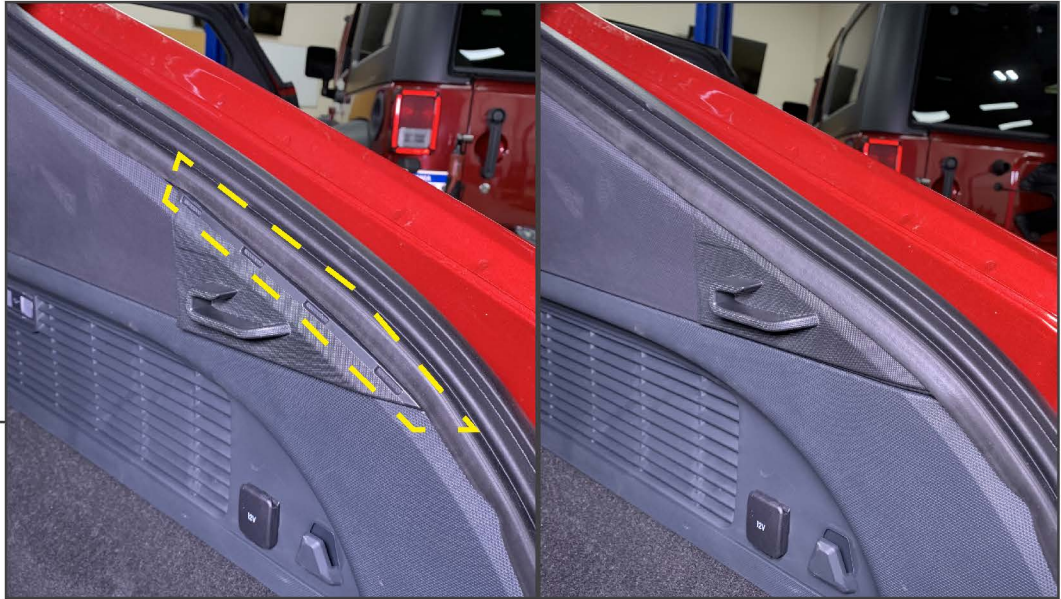

**STEP 1**

Lift the rear seat headrest using the button on the base. Place the hook brackets onto the headrest post on each headrest, and lower the headrest down onto the brackets.

**STEP 2**

Open the vehicle rear hatch. Clean the indicated areas of the rear trim panels with isopropyl alcohol and a microfiber cloth. Allow the isopropyl alcohol to fully dry.

**STEP 3**

Lift the hatch weatherseal along the previously cleaned area to allow space for the locking brackets. Once lifted, peel the double sided tape backing, and adhere the locking brackets to the side panels. Once properly adhered, place the weatherseal inner lip over the slotted area of the locking brackets.

**STEP 4**

Place the retractable cargo cover onto the hook brackets on the headrests, and twist the cover to lock into place. Extend the cargo cover outwards under the locking brackets, then raise the cover into the locking brackets.

---

**STEP 5**

Installation is now complete.
